Free tours of the Illawarra Flame House

Guest Speaker

Clayton McDowell

Proposal Lead for Team UOW
Solar Decathlon Middle East 2018

Clayton will speak about the development of a prototype solar powered energy efficient home which is suitable for people living with dementia.

Clayton is a leading researcher with the University of Wollongong Sustainable Buildings Research Centre.

As part of his PhD he was involved in the Energy + Illawarra project which sought to reduce the energy consumption of 800 low income, elderly participants homes across the Greater Illawarra.

He is also the Student Lead for the upcoming Solar Decathlon competition in Dubai in which UOW, TAFE and UOW in Dubai are aiming to design and construct a solar powered home intended to support ageing in place.
